A

- Abduction injuries
 - to the distal femoral epiphysis, 115:189
- Accessory soleus muscle, 116:200
- Acetabulum
 - central fractures of the
 - a critical analysis and review of the literature, 114:276
- Achondroplastic dwarf
 - skeletal growth and development of the, 116:8
- Acrodysplasia
 - peripheral dysostosis acrodysostosis and Theimann's disease, 114:107
- Allografts
 - frozen
 - versus autografts in anterior cervical spine fusions: roentgenographic evaluation of, 119:231
 - in the rat
 - histological studies of subcutaneous and intraperitoneal implants of trypsin-prepared dermal collagen, 115:291
- American Fracture Association
 - proceedings of the 36th annual meeting (Abstracts), 118:277
 - tour of Italian Orthopedic Centers (Abstracts), 118:272
- Amputations
 - traumatic
 - a Vietnam experience, 114:304
- Anchylosis (see Ankylosis)
- Anesthesia
 - intravenous regional
 - for closed treatment of fractures and dislocations of the upper extremities, 118:25
- Anhydrosis
 - congenital sensory neuropathy with orthopedic complications and management, 118:184
- Ankle fractures
 - unstable
 - vertical transarticular pin fixation for, impressions after 16 years of experience, 120:164
- Ankle joint
 - arthrodesis with complete removal of the distal part of the fibula
 - experience with the transfibular approach and three different types of fixation, 118:93
 - ankle joint replacement
 - cylindrical total
 - surgical and biomechanical rationale, 118:82
- Ankylosis
 - On the treatment of (classic), 121:2
- Antibiotic prophylaxis
 - in orthopedic surgery, 114:203
- Apophyses
 - iliac
 - prognostic value in idiopathic scoliosis, 116:80
- Arachnoiditis
 - tuberculous
 - neurotrophic arthropathy of the shoulder secondary to, 118:169
- Arteries
 - of the lumbar nerve roots
 - and cauda equina, 115:22
- Arthritis
 - candida
 - of the knee joint, 118:133
- Arthrodesis
 - in the presence of infection, 114:209
 - of the ankle joint with complete removal of the distal part of the fibula
 - experience with the transfibular approach and three different types of fixation, 118:93
 - of the hip and knee
 - fracture after, 115:177
- Arthroplasty
 - Charnley low-friction
 - lateral oblique incision for the, 118:7
 - development of total wrist, 116:209
 - duocondylar knee
 - Hospital for Special Surgery design, 120:76
 - geometric total knee
 - statistical evaluation of, 120:27
 - hip

- leukocyte and serum alkaline phosphatase after synovectomy of the knee, fracture and, 114:265
 - ICLH (Freeman-Swanson)
 - in the treatment of arthritic knee, 120:65
 - low friction of the hip joint
 - dislocation and instability complicating, 121:120
 - low friction of the hip
 - ectopic bone formation following, 121:53
 - polycentric knee
 - complication of, 120:11
 - polycentric total knee
 - statistical evaluation of, 120:18
 - total elbow
 - semiconstrained, 121:222
 - total knee
 - evolution of, 120:7
 - total hip
 - can wear be assessed?, 121:126
 - UCI ankle
 - prosthetic design and surgical technique, 114:180
 - Arthroscopy
 - of the knee, 121:173
 - Association of Bone and Joint Surgeons
 - Annual Meeting, 1976, 119:271
 - Autografts
 - in anterior cervical spine fusions
 - roentgenographic evaluation of frozen allografts versus, 119:231
 - Autotransplants
 - use of allogeneous articular bone implants as substitutes for
 - in adult patients, 114:192
 - Avascular necrosis
 - total
 - of the capital femoral epiphysis in congenital dislocated hip, 119:93
- B**
- Biceps brachii
 - rupture of the long tendon of
 - an unusual case related to the use of the pneumatic tourniquet, 121:217
 - Blood
 - banked autologous
 - use in total hip replacement surgery, 117:254
 - Bone
 - closed biopsy (letter to the editor) 117:344
 - giant cell tumors of
 - curettage and acrylic cementation in surgery of, 120:125
 - in organ cultures
 - effects of hyperoxia upon, 119:225
 - osteogenic
 - effect of fluoride supplementation on the strength of, 114:352
 - Bone acrylic cement interface
 - of the total hip replacement temperature problem at the, 121:95
 - Bone cement
 - acrylic
 - effects of laminations and blood entrapment on the strength of, 119:250
 - penetration and flow, 121:99
 - acute local tissue effects of polymerizing acrylic, 115:303
 - Polymerizing acrylic
 - monomer leakage: an in vitro study on the influence of speed and duration of mixing, cement volume and surface area, 119:242
 - Bone cyst
 - aneurysmal
 - evaluation of resection and of curettage in 20 cases, 118:136
 - solitary
 - of the cervical spine, 119:141
 - solitary
 - with epiphyseal involvement, 118:147
 - Bone defect healing
 - hormonal effects on the morphology of, 115:274
 - Bone formation
 - ectopic
 - following low friction arthroplasty of the hip, 121:53
 - Bone graft stabilization
 - for recurrent dislocation of the shoulder, 114:374
 - Bone injuries
 - due to tetany or convulsions, 118:118
 - Bone marrow
 - cell proliferation in, and thymus following fractures in rats, 120:261
 - Bone morphogenetic activity
 - and surface change, 121:295
 - diffusion of
 - from the residue of collagenase digested bone matrix gelatin through interstitial fluid, 115:268
- C**
- Calcaneus
 - functional treatment of intraarticular fractures of the, 115:236
 - Calcification
 - local mechanisms of
 - acidic lipids associated with the, 118:230
 - of growth plate cartilage
 - with special reference to studies on micropuncture fluids, 118:208

- Calcifying tendinitis
a new concept in its pathogenesis, 118:164
- Calcitonin
and bone fluid compartments
effects of calcitonin and/or parathyroid hormone on plasma radiocalcium changes, 118:242
- Candida arthritis
of the knee joint, 118:133
- Carpal tunnel syndrome
acute
secondary to pseudogout, 120:185
bilateral
secondary to gouty tenosynovitis, 118:188
- Cartilage
human femoral head
cell density of, 121:303
rabbit
an ultrastructural evaluation of the effect of hydrocortisone on, 115:286
- Cell interactions
osteogenic epithelial-mesenchymal, 119:211
- Cell proliferation
in bone marrow and thymus following fractures in rats, 120:261
- Cervical traction
Good Samaritan
constant, 118:267
- Cervico-thoracic anomaly
simulating traumatic fracture dislocation, 116:133
- Charnley arthroplasty
low friction
lateral oblique incision for the, 118:7
- Chemonucleolysis
a double blind study comparing chemonucleolysis with intradiscal hydrocortisone in the treatment of backache and sciatica, 117:179
- Chemotherapy
antituberculosis
spinal tuberculosis treated by radical operation and, 119:148
- Chondroblastoma
of the patella
an unusual case of cystic, 121:188
- Chondrodysplasias
lethal, 114:31
metaphyseal and spondylometaphyseal, 114:83
- Chondrodystrophies
chondro-osseous pathology in the, 114:137
- Chondro-osseous pathology
in the chondrodystrophies, 114:137
- Chondro-osteo-dystrophy
roentgenographic and clinical features of a child with dislocation of vertebrae, 114:4
- Clinical Orthopaedic Society
proceedings of the 63rd annual meeting, 1975, 119:257
- Clavicle
in Springel's deformity
surgery of the, 116:138
- Claviclectomy
total
anatomical and functional considerations in, 118:198
- Coccidioidomycosis
of bone and joints, 121:196
- Congenital sensory neuropathy
with anhydrosis
orthopedic complications and management, 118:184
- Convulsions
bone injuries due to tetany or, 118:118
- Coxa vara
the treatment of developmental
by abduction subtrochanteric and intertrochanteric femoral osteotomy with special reference to the role of adductor tenotomy, 116:116
traumatic
a case report of spontaneous correction in a child, 116:125
- Curettage
and acrylic cementation in surgery of giant cell tumors of the bone, 120:125
- D**
- Dacron graft
reconstruction of the patellar tendon using a case report, 118:70
- Decompression
for lumbar spinal stenosis
results of, 115:96
- Diaphyseal destruction
rapid
an unusual osseous manifestation of chronic granulocytic leukemia, 115:231
- Disk
collapsed lumbosacral
facetectomy for the relief of intraforaminal compression of the fifth lumbar root, 119:159
- Disk degeneration
auto-immunological basis of, 121:205
- Disk resorption
isolated lumbar
as a cause of nerve root canal stenosis, 115:109
- Disk ruptures
lumbar
comparison of disk excision with combined disk and spinal fusion for, 121:212

- Disk surgery
 lumbar
 free fat transplants in the prevention of
 epidural scar formation after, 115:92
- Disk syndrome
 lumbar
 myelography in the, 115:47
- Dwarfism
 achondroplastic and hypochondroplastic,
 114:18
 camptomelic
 report of a case and review of the salient
 features, 116:29
 diastrophic, 114:61
 metatropic
 the Kniest syndrome and pseudoachon-
 droplastic dysplasias, 114:70
 orthopedic complications of, 114:153
- Dyschondrosteosis
 and Medelung's deformity, 116:24
- Dysplasia
 congenital hip
 intertrochanteric osteotomy in the treat-
 ment of, 119:54
 in the light of early and very early diag-
 nosis, 119:6
 epiphyseal, 114:46
 mesomelic skeletal, 114:94
 pseudoachondroplastic
 metatropic dwarfism
 the Kniest syndrome and, 114:70
 residual congenital acetabular
 intertrochanteric femoral osteotomy with
 concentric reduction of the femoral
 head in treatment of, 119:48
 skeletal
 classification of the, and the radiologic
 approach to their differentiation, 114:2
- Dysplasia epiphysealis hemimelica
 a case report, 116:32
- E**
- Eburnated bone
 observations (Letter to the Editor), 118:269
- Elbow
 flexion and extension contracture of the
 surgical management, 117:289
 normal carrying angle
 radiographic study of 422 patients, 119:
 194
 semiconstrained total arthroplasty, 121:222
 total replacement, 117:283
- Electrical stimulation
 chronic
 alteration in the force and fatigability of
 skeletal muscle in quadriplegic humans
 following exercise induced by, 114:326
 percutaneous
 for clinical tibial fracture repair, 114:290
- Embolism
 fat
 following bilateral total knee replacement
 with the Guepar prosthesis, 115:195
- Eosinophilic granuloma
 of the proximal tibial epiphysis, 118:153
- Epiphyseal arrest
 growth following
 a simple method of calculation, 114:316
- Epiphysis
 proximal humeral
 valgus angulation fracture of the, 116:
 155
 proximal tibial
 eosinophilic granuloma of the, 118:153
 slipped capital femoral
 a study of 68 cases in the Eastern half
 area of Japan, 119:172
- Ergotamine
 ingestion
 anterior tibial compartment syndrome as-
 sociated with, 118:44
- Ewing's sarcoma
 of the great toe
 a case report, 116:203
- F**
- Facetectomy
 for the relief of ontraforaminal compression
 of the fifth lumbar root at the collapsed
 lumbosacral disk, 119:159
- Facet denervation
 in the management of back and sciatic pain,
 115:157
- Facet syndrome, 115:149
- Fat embolism syndrome
 following total hip arthroplasty, 121:105
- Femoral component insertion
 in vitro measurement of bone-acrylic inter-
 face pressure during, 121:60
- Femoral epiphysis
 abduction injuries to the distal, 115:189
 treatment of slipped upper
 by fibular grafting, 114:270
- Femoral head
 avascular necrosis
 following cardiac transplantation, 117:
 217
 revascularization of
 a clinical and experimental study, 114:
 364
 vascularity of the
 ^{99m}Tc-diphosphonate scintigraphy val-
 idated with tetracycline labeling 121:
 143

- Femoral head cartilage
 human
 cell density of, 121:303
- Femoral neck fractures
 scintimetric avaluation of complications
 after, 121:149
- Femoral osteotomy
 abduction subtrochanteric and intertrochanteric
 the treatment of developmental coxa vara
 by, 116:116
- Femur
 combined procedure of open reduction and
 shortening in treatment of congenital dislocation
 in older children, 119:60
 combined trochanteric and ipsilateral shaft
 fractures of the
 treated with the Zickel device, 117:241
- Fibular function
 dynamic
 a new concept, 118:76
- Flexor digitorum sublimis
 anomalous
 a case report, 121:230
- Fluoride supplementation
 the effect of
 on the strength of osteopenic bone, 114:352
- Foot
 posterior roentgenogram of the, 118:202
- Forearm
 fractures in children
 pitfalls and complications, 120:172
 neurilemommas of the hand and, 114:219
 nonunion of the
 Kuntscher intramedullary reaming and
 nail fixation for, 116:215
- Fracture(s)
 ankle
 unstable, vertical transarticular pin fixation
 for, 120:164
 bilateral subtrochanteric
 pycnodysostosis presenting with, 117:247
 central
 of the acetabulum: a critical analysis and
 review of the literature, 114:276
 cervical spine
 late instability secondary to laminectomy,
 119:144
 closed
 acute hematogenous osteomyelitis complicating,
 117:296
 fatigue
 of tibial and femoral shaft in soldiers,
 118:35
 femoral neck
 in young adults, 114:259
- femoral shaft
 intramedullary nailing of ten years' experience,
 114:282
- forearm

- healing of
 experimental study on the electrical impedance
 and the effect of direct current, 120:264
- iatrogenic subcapital of the hip (Letter to
 the Editor), 118:268
- in rats
 cell proliferation in the bone marrow and
 thymus following, 120:261
- intra-articular of the calcaneus
 functional treatment, 115:236
- leukocyte and serum alkaline phosphatase
 after hip arthroplasty, synovectomy of the
 knee and, 114:265
- of a vertebral body end plate and disk protrusion
 causing subarachnoid block in an adolescent,
 116:112
- of the lower limbs
 alterations in pulmonary function, coagulation
 and fat metabolism in patients with, 115:248
- of the lumbosacral spine
 displaced with delayed cauda equina deficit,
 120:155
- of the proximal tibia
 cast brace treatment of plateau and bicondylar,
 119:184
- open reduction
 of the neck of the proximal phalanx in
 children, 116:176
- osteocondral
 of the dome of the talus, 114:185
- peritrochanteric
 compression fixation of, and early weight
 bearing, 121:157
- spontaneous

 orthopedic management and pattern of
 recovery, 116:61
- Gunshot wound
 extremity
 and gunshot fracture in civilian practice,
 114:296

H

- Hand
 deforming arthropathy of systemic lupus
 erythematosus
 corrective surgery for, 117:292
- metacarpophalangeal joints of the,
 congenital flexion and ulnar deviation of
 the, 116:173
- neurilemmomas of the forearm and, 114:
 219
- Hand injuries
 from sea urchin spines, 114:216
- Heparin
 minidose therapy
 an unusual complication of, 118:130
- Hip
 congenital dislocation
 acetabular growth potential and some
 factors upon which it may depend,
 119:99
- anatomy and pathology of, 119:23
- an evaluation of conservative and oper-
 ative methods in the treatment of, 119:
 76
- associated with congenital muscular torti-
 collis, 121:163
- combined procedure of open reduction
 and shortening of the femur in treat-
 ment of older children, 119:60
- early diagnosis, and treatment of, 119:28
- morphology of bilateral untreated, in a
 74-year-old man, 119:112
- overdiagnosis of, 119:89
- pathology of the limbus in untreated ter-
 atologic; case report of a 10-month-old
 infant, 119:107
- perinatal observations on the etiology of,
 119:11
- total avascular necrosis of the capital fem-
 oral epiphysis in, 119:93
- treatment by muscle release, skeletal trac-
 tion and closed reduction in older
 children, 119:70
- congenital dysplasia
 intertrochanteric osteotomy in the treat-
 ment of, 119:54
- in the light of early and very early diag-
 nosis, 119:6
- friction arthroplasty of the
 ectopic bone formation following low,
 121:53
- iatrogenic subcapital fractures of the (Letter
 to the Editor), 118:268
